

IMPROVEMENT CHART

This is a guide to what could be achieved providing you work on your game between lessons and playing.

I am not guaranteeing you will hit these numbers but they are (in my opinion) very achievable.

Start with your average score for 18 holes then think about how much you would like to improve by. Find the plan that covers that number of shots and then work out how quickly you'd like to work on your game to achieve it.

For example, if you shoot on average 82 for 18 holes and want to shoot consistently in the 70s. You need to improve 3-4 shots per round so your options are; a maintenance plan for 12 months = £525, a development plan for 6 months = £475 or a Game Changer plan for 3 months = £350.

Once you've hit your target you can then follow up with a maintenance plan to continue growing your game or choose another plan to take your game even further.

The beauty of this is that the choice is yours!

	Average Score	Average Score	Average Score
	75	85	95+
PLAN	Shots per round improvement	Shots per round improvement	Shots per round improvement
MAINTENANCE 1 lesson per month			
3 months	1 £140	1-2 £140	2-3 £140
6 months	1-2 £270	2-3 £270	3-4 £270
12 months	2-3 £525	3-4 £525	4-5 £525
DEVELOPMENT 2 lessons per month			
3 months	1-2 £250	2-3 £250	3-5 £250
6 months	2-3 £475	3-4 £475	4-6 £475
12 months	3-4 £900	4-6 £900	6-8 £900
GAME CHANGER 3 lessons per month			
3 months	2-3 £350	3-4 £350	4-6 £350
6 months	3-4 £675	4-6 £675	6-8 £675
12 months	4-6 £1250	5-8 £1250	8-10 £1250
ULTIMATE 4 lessons per month			
3 months	3-4 £450	4-6 £450	6-8 £450
6 months	4-6 £850	5-8 £850	8-10 £850
12 months	5+ £1600	10+ £1600	15+ £1600
